

# Hot Drinks Packaging in the Philippines

April 2024

Table of Contents

### KEY DATA FINDINGS

#### 2023 DEVELOPMENTS

Flexible aluminium/plastic remains the dominant pack type

Premium products sales increase as consumers want café experience at home

Small pack sizes are preferred among consumers

#### PROSPECTS AND OPPORTUNITIES

Health consciousness and sustainability will remain key trends

Smart packaging will gain in popularity, but flexible aluminium/plastic will continue to dominate

## About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
